

Alcor LED Stadium Light

Alcor LED stadium lights are designed to replace 400w to 2000w Metal Halide and HPS stadium lights. Replace your old outdoor area lights, ballpark or stadium lights with a high efficiency LED area light. Save money and replace bulbs less often with a 100,000 hours rated LED. Fixture is also ideal for new installations.

Alcor LED Stadium Light

Features:

- High impact resistance IK10
- High protection level up to IP66
- Anti 17-level wind power
- High vibration resistance
- Surge suppression protection
